

Holdem Indicator 2 4 2-cracked

- Instantly calculates accurate winning odds, pot odds, outs and table position. Shows EV and Sklansky Group ratings for your pocket cards.
- Removes limits from hands that are not potentially strong, as well as reduces betting limits and increases rebuy limits.
- Uses his knowledge of mathematics to create a strategy that is based on the mathematical rules of poker, and not on emotions.
- Makes decisions based on math, not just whether he plays correctly or not.
- Never try to make a winning bet if there is a possibility that the pot will be many times larger given his outs.
-
