What's New In Win32 Gaelicum Remover?

Is your computer under attack? Are you looking for a way to remove a single or all files infected with the Win32/Gaelicum worm? This is a convenient and user-

friendly solution to deal with the problem. It is a small and portable piece of software that removes the Win32/Gaelicum worm from your computer. Thanks to its advanced scanning procedure, Win32/Gaelicum Remover assures complete removal of

the worm. Moreover, you can be sure that the infected files won't have any remnants remaining in the Windows Registry or on the hard drive. The program doesn't modify the infected files or folders. After processing is complete, no changes or traces are left.

Win32/Gaelicum Remover uses a low-to-moderate quantity of CPU and system memory, so it shouldn't put a strain on the computer's overall performance. It has a good response time and works well, without making the OS hang, crash or pop up error

dialogs. Thanks to its intuitive layout, Win32/Gaelicum Remover should satisfy the entire audience.

Win32/Gaelicum Remover includes the following features: Scanning of entire hard drive and subfolders. Removal of infected files,

quarantine of infected items,
deletion or renaming of the
selected infected items. Use
the saved log file to monitor
and monitor the infection
status of all infected items.
File monitoring and
notifications. Delete, rename,
quarantine or delete all

infected files, folders or
shortcuts. Start automatically.
