FIFA is the ultimate team-based sports game that takes simulation to a new level. Not only is it entirely authentic, but it allows you to pick a team, take control of the action and put your skills to the ultimate test with some of the best athletes on the planet. Key Features Authentic player-movement: Every single tackle, goal and pass is accurately recreated, taking simulation to a new level. Time your shot with your run and your teammates and make the world sit up and take notice. Groundbreaker: Tackle your opponent out of possession, send them on their way and take charge of the ball. You can even pick the ball up on your own by blocking a throw-in. All-new Power Shot!: At last, a ball-control mechanic that you can actually use. Even taking a shot with the run is now a realistic scenario. As your player runs towards the ball, the goalkeeper is forced to move and can't look in the direction you're heading. Improved ball physics: Every effort has been made to ensure that passing, dribbling and shooting are as realistic as possible. New Attacking-Strength Control: Step up and shoot on the run. Creating chances on the move is a skill you can now master and which feels super-realistic. Improved accuracy: Even small tweaks have made a significant impact on the accuracy of your shots. New Match Engine: We have rebuilt all of the minigames in FIFA. From free kicks to penalty kicks, we have ironed out all the kinks to make sure that your opponents are under maximum pressure. New Ways to Win: The new Breakthrough mode adds a number of new ways to win including keeping possession and scoring in counter-attacks. Release Date FIFA 22 takes the game even closer to the real world by adding a completely new way to play. FIFA 22 will be released worldwide on PlayStation 3, PlayStation 4, Xbox 360, Xbox One, Nintendo Switch, Wii U, and PC on September 28th. The only thing I can say is if you make a final for any reason and make a huge mistake during the match you can not continue to play. If you have a bad match you start all over from the beginning of the second half of a tournament with the same team and the game stops you a short time before the quarter finals. There's also a bug where you can't fast-forward, going instead into the next season. Also the bc9d6d6daa
