Deuter - Discography (1971-2009) A: mefxtor9c2f27a4105b2ee01da5a5e228ad7e5 Lj2 E{U:Q: System.Exception: Initializer for type fails I have a LINQ to SQL query that is giving me an exception. I have checked my mapped fields, and everything looks good. However, my mapping validator is throwing an exception: System.Exception: Initializer for type 'WinWebApp.Shared.Appointment' throws an exception. at System.Data.Linq.Queryable.Initialize[TResult](IQueryable`1 source) at System.Data.Linq.Queryable.System.Linq.IQueryProvider.Execute[TResult](Expression expression) at System.Data.Linq.Queryable.Single[TResult](IQueryable`1 source) Here is my code: public static List GetAppointmentsByUser(string loginuser) { List appointments = new List(); using (DataContext db = new DataContext()) { Appointment appointment = new Appointment(); appointment.Date = DateTime.Now; appointment.Duration = new Duration(); appointment.Id = 1; appointment.LoginUserId = loginuser; appointment.Title = "title"; appointment.Description = "description"; appointments.Add(appointment); db.SaveChanges(); } return appointments; } Here is my appointment class: public class Appointment { [Key] public int
