Description: The Cessna Model B is a long range fixed-gear, single seat, single-engine piston aircraft. The aircraft was introduced in 1938 as the Cessna Model A and was the first civilian aircraft to be equipped with true all-metal fuselage frames, plexiglass nose and passenger doors, air-conditioning, and retractable landing gear. From the mid-1950s the new Model B aircraft was extensively redesigned but the term is a misnomer as it was really a re-design of the A model.The Cessna Model B, Model 150, and Model 172 are considered to be the most widely used general purpose aircraft in the world today and are still in production. Read also: Cessna 172 pdf download Description: The Cessna Model B is a long range fixed-gear, single seat, single-engine piston aircraft. The aircraft was introduced in 1938 as the Cessna Model A and was the first civilian aircraft to be equipped with true all-metal fuselage frames, plexiglass nose and passenger doors, air-conditioning, and retractable landing gear. From the mid-1950s the new Model B aircraft was extensively redesigned but the term is a misnomer as it was really a re-design of the A model. The Cessna Model B, Model 150, and Model 172 are considered to be the most widely used general purpose aircraft in the world today and are still in production. The Cessna 172 is a four-place, single-engine, low-wing light-sport aircraft and is commonly referred to by its model number, 172. In flight it is nearly identical in appearance to the Cessna 152, a product of the same era. The 4-place seat is restricted only to one passenger and carries a single pilot. The 172 was introduced in 1952 and has continued in production throughout its lifetime. It competes with the Piper PA-31, the Beech Bonanza and the Cessna 180. The airplane is manufactured in Wichita, Kansas and is offered in both fixed and retractable landing gear configurations with a single instrument panel. Download the Cessna Model B PDF Manual. The Cessna Model B is a long range fixed-gear, single seat, single-engine piston aircraft. The aircraft was introduced in 1938 as the Cessna Model A and was the first civilian aircraft to be equipped with true all-metal fuselage frames, plexiglass nose and passenger doors
