Photoshop was released on 19 August, 1988 and was released solely for use with Macintosh computer systems. This is my own special award winning platform of choice. I've used Photoshop since version 6 and have only used other products (GIMP) since then. What I love about Photoshop is that it doesn't get in the way of your creativity and works as you would expect it to by not including over 10,000 blahblah menus that other programs don't need. Adobe Photoshop CS 8 is an impressive and advanced application used for editing your photos. This application allows you to design almost anything which you need.
