

Duplicate Files Deleter Crack [Win/Mac]

Download

Duplicate Files Deleter

This is a program to allow you to delete any number of duplicate copies of the same file. This will keep the original and delete all the duplicate. The time it takes to delete the duplicate is dependent on how many duplicates there are. Duplicate Files Deleter is the Microsoft Excel add-in to allow you to delete duplicate files. With a few clicks, you can delete any number of duplicates of the same file in a matter of minutes. The longer the files are saved, the more time it will take to complete the process. Each file contains a description of the process that was performed on it and a count of how many times it has been used to help the user find duplicates. The list of duplicates can be viewed in a tabbed window, which makes the process easy to use. What is new in this release: You can now close the Excel window after all the duplicates have been deleted. Bug fixes: When using a left and right arrow key, it would jump the rows which are displayed on the tab. Version 1.2.0: Added an option to the Duplicate Files Deleter to close Excel window after duplicate files have been deleted. Additional Information: You can also take a look at some of our other programs. There are other tabbed Excel add-ins such as AliasTabs, Free Excel Tab, Excel Tab Pro, ExcelTabs Plus, ExcelTabs Tab, ExcelTabs Maxiumus. The selection of tabbed Excel add-ins will depend on the requirement of the user. I am using Excel for data entry in my project and I am using this particular add-in to look through the data. I have experienced good response from the developers. They have offered me free upgrades and are very cooperative. The product is easy to use and adds a lot of functionality to Excel. What is new in this release: 1. Add a button to close Excel after deleting duplicate files. 2. Fixed an issue when some errors occurred while deleting duplicate files. 3. Bug fixes. This add-in works flawlessly. It's easy to use and does what it says it does. I have used a few other Excel add-ins before and this one is the best by far. The developers are responsive and offer regular upgrades. The product has many more features than I was looking for and more than it is worth. Duplicate Files

Duplicate Files Deleter Crack Keygen Full Version Free

Automatically identify and delete duplicated files and thus save disk space. FileMacro FileMacro is an easy-to-use application that enables you to perform different actions with files of different extensions, such as converting files from one type to another, renaming, compressing or extracting them. All the functions are executed by the same windows, making the tool accessible to the inexperienced users, as well. By default, the utility offers six most popular file-processing options: "Extract", "Rename", "Compress", "Split", "Merge", and "Compress to", but you can add more functions to the list, if necessary. There's an option to set up a personalized hot-key for the tool, so that you can start a file conversion using a single click of the mouse. The interface is simple, as well. The number of options can be expanded and modified on the fly, making the whole process very easy and efficient. There's an option to download third-party extensions, which adds even more functions. And the program is absolutely safe. It keeps all the settings under your control, so that you won't accidentally delete files you need. KEYMACRO Description: An easy-to-use, safe and efficient file manager. The FileJuggler application offers a powerful solution to work with files of all kinds. For example, it provides an integrated solution for creating and editing SQLite databases. With this tool, you can easily convert between different kinds of files, including: - *.abw, *.ape, *.at3, *.bin, *.cco, *.coq, *.cor, *.csa, *.cso, *.data, *.dta, *.doc, *.epub, *.mrc, *.o, *.pdf, *.pem, *.pot, *.ppt, *.rbc, *.rbd, *.rfa, *.xfd, *.xls, *.xlsx, *.z, *.zoo, *.txt, *.xml, *.xpi, *.js - *.dcr, *.ps, *.pgm, *.bmp, *.cgm, *.eps, *.geoj, *.gpl, *.htm, *.html, *.kml, *.m3u, *.m4a, *.m4v, *.mp3, *.mp4, *.oga, *.ogg, *.oga, *.swf 2edc1e01e8

Duplicate Files Deleter

Duplicate Files Deleter is a free and open source utility that identifies and removes duplicate files from a specified directory. With its help, you can quickly identify and remove duplicate files, so you won't be forced to spend time sorting out all files manually. Moreover, with Duplicate Files Deleter you can easily remove duplicate files that are copies of others in the same directory, without affecting the original files. Duplicate Files Deleter is simple and easy-to-use. It only asks you to input a folder, and automatically scans it for duplicate files. The number of duplicates is displayed in the window and their names are labeled accordingly. When you are satisfied with the results, simply click the Remove Selected button to remove the duplicates and save the job. For safety purposes, Duplicate Files Deleter includes a "Quick Scan" option that allows you to run a quick scan to identify and remove duplicates. The scan can also be launched automatically with a timer or manually. It's highly recommended for users who don't want to wait for the results. Having Duplicate Files Deleter installed on your computer, you can get rid of duplicate files in the following ways: Start Duplicate Files Deleter by double-clicking its icon in the Start Menu or Windows task bar, or by running it directly from the desktop. In order to launch the tool, you can also add its shortcut to your desktop or to the start menu, or place it on your computer's desktop. Duplicate Files Deleter - Features: • It identifies and removes duplicate files in a directory, without affecting original files • It automatically launches a Quick Scan, to speed up the process • You can easily identify and remove duplicate files in the folder, without opening files individually • You can specify a folder, or provide the path to the folder in the "Default" field • You can choose to remove the duplicates, or to keep them and display their information • You can add a short text in the description box • In order to protect your privacy, Duplicate Files Deleter does not require any authorization, and doesn't create any history files Uses a "Cloud" of servers run by Yotta and mainly available at cloud storage solutions. The "Cloud" servers are great for users who don't want to be bothered with managing their own server or server space. **Note: With Duplicate Files Deleter "Cloud" service
