Photoshop looks at that folder and selects only the images in it. Then, it launches Photoshop's Review Panel, shown in the image above. After a short process, I've got the job done. Instead of a long list of photos, I can now see a set of small thumbnails that showcase the images. I can then rate the photos based on their overall quality, select those I'd like to include or exclude, and choose from a couple of preset ratings (Thanks' Cast, for example, is still the default.
